

Sprint 1 Review

What has been done:

- We created Trello and added product backlog and backlog for sprint 1
- We made user interface model with Figma
- We wrote Product vision and Project plan
- We set up github repository for the project

What is in progress:

- The total number of completed user stories is 7, with none left in progress.
- During the week 1 sprint no user stories were required to be postponed for week 2 sprint.
- The database structure requires modifying to better match the needs of the project.

Obstacles we faced:

- During sprint 1 the team didn't encounter any obstacles.
