

## Sprint 4 Review

### What has been done:

- Management - add update for genre, book, author
- Create docker image of the project
- Create runnable docker container of the project
- Implement continuous development through Jenkins
- Unit tests for remaining services
- Tested end to end tests via TestFX
- Project presentation

### What is in progress:

- Editing user information was left undone

### Obstacles we faced:

- During the sprint 4 the group didn't encounter any obstacles
